Service List

EXHIBIT A

I am listed in the transcript appearances as having the address of 55 Ross Circle, Sedona. That address was changed around last September and so the Service List correctly has my address as 200 Sierra Road, Sedona, Arizona 86336 but the transcript does not.

The corrections to the following mistakes can all be verified by listening to/watching the video minutes posted at the ACC website.

Throughout pp. 584 to 588, "AMI" is often misspelled as "AIM."

Page 663, lines 1, 2 & 9, "transience" should be "transients." They *do* sound alike but I know what I said and what I meant. Transient, as in high frequency voltage transient, is an electrical term; transience isn't.

"RFP" at page 742, lines 18, 22 & 25, at page 743, line 7, and at page 785, line 22, should be just "RF."

Page 744, lines 21 & 22, reads: "what the vendor actually states that on average they communicate 15 minutes a day." It should read: "what the vendor actually states **is** that on average they communicate 15 minutes a day."

Page 753, line 4, reads "to the FCC to vouch that the conducted emission of their" but should be: "to the FCC to vouch that the conducted emissions **s** of their."

Page 790, line 1: "Transience" should be "transients."

Page 927, line 20, reads "wire, it is going into your body, but the -- and air" but should be "wire, it is going into your body, but, but in air."

Page 929, line 25, reads "about it. It is a Tenma. Is that how you say it?" but should be "25 about it. It is a Tenmars. Is that how you say it?"

Page 929, line 5, reads "meter for under 200 bucks. And if you want to log this" but should be "meter for under **2,000** bucks. And if you want to log this."

Page 932, line 3, reads "microwaves of amperage will give you cancer on a chronic" but should be "**microamps** of amperage will give you cancer on a chronic."

Page 938, line 5, reads "of an AM radio in a car will pick up when driving near a" but should be "an AM radio in a car will pick up when driving near a."

Page 938, lines 12 & 13, reads “model AM portable radio to buy. I say tune in to a rough station so you get just the white noise, walk” but should be “model AM portable radio to buy. I say just turn it on, tune it off station so you get just the white noise, walk.”

Page 938, lines 21 & 22, reads “station or off station on AM. Like when I first moved to Palm Springs, when I bought that wind farm, that” but should be “station or off station on AM. Like when I first moved to Palm Springs area, when I went by that wind farm, that.”

Page 939, line 5, reads “the mile, they AM radio had no signal. It blotted out” but should be “the mile, **the** AM radio had no signal. It blotted out.”

Page 959, line 13, reads “are owed a refund to subsidize the true cost causers,” but should be “are owed a refund for **subsidizing** the true cost causers.”

Page 959, line 19, reads “no one wants to see because it does not facilitate the” but should be “no one wants to see because it does not fit the.”

Page 959, line 22, reads “there are some jurisdictions and conscientious consumer” but should be “there are some jurisdictions that have conscientious consumer.”

Page 960, line 19, reads “else to reflect that's worth your pondering. At” but should be “else they reflect that's worth pondering. At.”

Page 983, line 6, reads “to go home at night and had to take a nice long bath to” but should be “to go home at night and take a nice long bath to.”

Page 1004, line 13, reads “I am not sure. Perhaps there will be a question” should be “I am not sure. Perhaps that will be a question.”

Page 1008, line 20, reads “its proposed average service life for meters?” There should be no question mark at the end. Line 20 is the end of a statement, not a question.

Page 1087, line 1, reads “January 1st, 2014 through the present. And the APS's” but should be “January 1st, 2014 through the present. And the APS.” No apostrophe s.

Page 1090, line 25 reads “ACALJ JIBILIAN: EDA/McMullen either?” but should be “ACALJ JIBILIAN: ED8/McMullen either?”
